

PhytoCare®

BioLife™ Paste

Revitalizing intestinal health. Supports animals with intestinal stress or appetite issues with probiotics and phytonutrients.

INGREDIENTS: Each 10 ml dose contains selected PhytoCare® phenolic nutrients, compatible PHT microbial isolates of *B subtilis*, *B licheniformis*, *B caogulans* and *E faecium*, fermentation by-products, Vitamins A, E, C and D3, soybean oil, dextrose, silicon dioxide sodium chloride, potassium chloride. Natural flavoring and coloring agents.

USAGE DIRECTIONS: Apply 1 cc for each 10 pounds of body weight to the back of the tongue for intestinal support for higher nutritional intake. The paste is designed for all animals that are underachievers and suffering from enteric issues such as not eating, falling behind, being treated with antibiotics for diarrhea, or enteric looseness. Can be repeated daily for 3 consecutive days.

WARNING: PhytoCare® paste make no claims as to any therapeutic activity. The product carries no withdrawal periods. Store product in a cool dry area.
