

PhytoCare®

GI-Care™ Paste

Supporting GI health and wellness. Supports animal enteric stresses with low feed intake. A paste for GI issues, a blend of PHT's selected phytonutrients, probiotics, yeast factors and essential vitamins support natural intestinal health.

INGREDIENTS: Each 10 ml dose contains selected intestinal beneficial plant extracts, yeast factor and selected microbial cultures. Selected PhytoCare® phytonutrients of oregano, green tea, pomegranate as processed plant extract, microbial isolates of *B subtilis*, *B licheniformu*, *B caogulans* and *E faceium*, as well as fermentation by-products, Vitamins A, E, C and D3, soybean oil, dextrose, silicon dioxide sodium chloride, potassium chloride. Natural flavoring and coloring agents.

USAGE DIRECTIONS: Apply 1 cc for each 10 pounds of body weight to the back of the tongue for intestinal support for higher digestive nutrient uptake and supports improved intestinal health. The paste is designed for all animals that are experiencing intestinal diarrhea, looseness or environmental stress. Can be repeated daily for 3 consecutive days. Animals with severe acute intestinal issues should us the PhytoCare® GI-Revive™ paste as labeled.

WARNING: PhytoCare® paste makes no claims as to any therapeutic activity. The product carries no withdrawal periods. Store product in a cool dry area.
